* UKVI IELTS alternatives: we can accept other tests as proof of English language. Learn more at: *kaplanpathways.com/uk/ielts/*

Academic entry requirements: for all course options above, you need to have completed high school at the required level. For requirements specific to your country, select your preferred degree and pathway course from our online Degree Finder: *kaplanpathways.com/liverpool/ug-degrees*

Your course length: this is influenced by your English language score that you submit as part of the admissions process. Soon after your course starts, we'll check your English and academic level again to make sure you're on the most suitable study plan, with modules that best fit your skills and goals.

Common modules taken by all students:
· English for Academic Purposes
· Extended Project

You will also take 1 to 3 of the following modules that fit your degree and career goals[†]:
· Business Organisations and Management
· Contemporary Global Issues
· Entrepreneurship
· Intermediate Mathematics
· Logic and Critical Thinking
· Mathematics
· People, Culture and Society
· Statistics

Students wishing to progress to an Architecture degree will also take:
· Creative Practice and Portfolio

Personal development activities: during your course, you'll also have activities to build practical, digital and employability skills.
Learn more about modules: you'll find module summaries later in this booklet.

ⓘ **Optional integrated online internship**
For selected course options and an extra fee (maximum £1,400), you can take an internship as an additional final term while at the College in the UK. You will:
· apply and further develop your English language skills in a professional setting
· build real-world experience related to your degree subject at university
· gain additional career skills and experience and boost your CV before your degree
See the undergraduate module summaries section for more details.

Extra support: for courses of over 2 terms, you will take additional modules from a selection of Enhancement and Extended English and Skills options (depending mainly on your IELTS score) before the modules to the left.

Students with at least UKVI IELTS 5.5: you can study a 2.5 or 3-term course that typically includes Enhancement modules to maximise your university preparation:
· Critical Reading, Writing and Reasoning for Higher Education
· Independent and Collaborative Study

Plus up to 2 of these 3 modules:
· Digital Applications
· Preparatory Mathematics
· Preparatory Statistics

Students with less than UKVI IELTS 5.5: you will typically take Extended English and Skills modules to improve your English language and academic skills.

Students with UKVI IELTS 4.5 or 5.0 will typically take:
· English for Academic Study 3
· Independent and Collaborative Study
· Reading and Writing 3
· Speaking and Listening 3

Students with UKVI IELTS 4.0 will typically take:
· English for Academic Study 2 and 3
· Independent and Collaborative Study
· Reading and Writing 2 and 3
· Speaking and Listening 2 and 3
· Study Skills Preparation

[†] For some degrees, the University will require you to take particular modules. Details are on the online Degree Finder and will be in your offer letter.

† For some degrees, the University will require you to take particular modules. Details are on the online Degree Finder and will be in your offer letter.

Biology
Gain an understanding of biological systems and organisms, as well as key laboratory processes.

Business Organisations and Management
Learn about the public and private sectors, the motivations and finances of companies, and the challenges faced by modern businesses.

Chemistry
Gain an understanding of chemical reactions, fundamental particles and the periodic table.

Contemporary Global Issues
Explore the big issues facing humanity in the 21st century, and critically evaluate their causes and effects.

Creative Practice and Portfolio
Research the work of selected practitioners in your field, responding to and evaluating their work, in your own illustrative portfolio.

Critical Reading, Writing and Reasoning for Higher Education
Enhance your ability to read and understand complex ideas in English, and learn how to compose convincing written arguments.

Digital Applications
Develop your digital skill set, helping you to use digital tools to support your academic study, including using and citing digital sources.

English for Academic Purposes
Develop your English to the level you need for university study, and to really get involved in academic discussions.

English for Academic Study 2
Improve your English grammar and vocabulary in order to communicate in an academic environment.

English for Academic Study 3
Expand your knowledge of English grammar and vocabulary to the level required for degree study.

Entrepreneurship
Familiarise yourself with varied concepts of creativity, entrepreneurship and innovation, and learn how to apply them in business.

Extended Project
Learn how to plan, carry out and report an extended project. You can choose a topic that matches your degree and career goals, and personal interests.

Independent and Collaborative Study
Work independently and in teams on an academic task, and practise applying your subject knowledge and study skills.

Information Technology
Discover the key concepts of computer science, including data representation and programming languages.

Intermediate Digital Applications
Develop skills in problem-solving and creative practice using a range of software packages appropriate to your field of study.

Intermediate Mathematics
Expand your knowledge of mathematical concepts including algebra, geometry, problem-solving, trigonometry and vectors.

Logic and Critical Thinking
Explore the concepts, history and skills relating to logic and critical thinking, and how they apply in real-world contexts.

Mathematics
Develop your mathematical skillset in areas such as algebra, decision maths, probabilities and statistics.

People, Culture and Society
Learn about the history, theories and issues that relate to human culture and society around the world.

Physics
Gain an understanding of topics like astrophysics, electromagnetism, mechanics and thermodynamics.

Preparatory Mathematics
Develop your numeracy skills, including algebra, geometry and graphs.

Preparatory Science
Gain an introduction to core scientific knowledge, and subject-specific language required to study the sciences.

Preparatory Statistics
Build on your knowledge of using statistics, including the use of data to illustrate facts and support theories.

Reading and Writing 2
Develop your English reading and writing so that you can understand and articulate ideas and reasoning.

Reading and Writing 3
Develop your English reading and writing skills to a sufficient level to communicate complex ideas.

Speaking and Listening 2
Practise listening and speaking so that you are better prepared for academic debate and discussion.

Speaking and Listening 3
Improve your ability to listen and speak in English, allowing you to fully engage with academic topics.

Statistics
Learn basic algebra, as well as the skills needed to analyse and apply statistics in a range of ways.

Study Skills Preparation
Gain an introduction to the wide range of skills and strategies you'll need to succeed at university, such as research methods and using and citing sources.

Online internship
While you're at the College in the UK, you'll take an online work placement as your final term if you choose a pathway course with integrated internship.

The internship is offered in partnership with Virtual Internships, a leading education company in the field. This gives you the chance to gain valuable work experience at one of 3,500+ companies around the world.

You will choose one of 18 career fields on your internship, based on your chosen progression degree. This will all help you develop important skills, practise your English and give you some great experience to add to your CV.

Find out more at:
kaplanpathways.com/internship

Personal development activities (all courses)

Culture and activities
We'll help you have a hugely beneficial cultural and social experience, and encourage you to explore different activities, sports, crafts and more. You might learn about local history and culture, or develop your wider subject knowledge and understanding of related industries.

Employability and digital skills
Outside of your academic learning, you'll also be taught skills that will be useful at university and later in life. You'll receive help in making the most of your creativity, improving your communication and developing your digital skills. We'll also help you build a CV, portfolio and online profile to empower you after you graduate.

Social networking
Forming a strong social network can be very beneficial, even if it's just to discuss and debate ideas. Not only will you get to know your classmates, you'll also have opportunities to join professional bodies, and network with students and industry professionals: something that can be really helpful when you go on to start your career.
